automated storage & retrieval systems

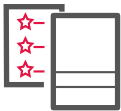

How Industore can revolutionise your packaging and manufacturing operations with the world's leading automated storage and retrieval systems:

In today's fast-paced packaging and manufacturing industries, space optimisation, efficient inventory management, and workforce safety are paramount. Industore Limited, the UK and Ireland's exclusive suppliers of Hänel automated storage and retrieval systems (AS/RS), offers cutting-edge solutions with its Vertical Lift Modules (VLM), called "Lean-Lifts" and automated storage carousel modules, "Rotomats".

Challenges in Packaging and Manufacturing:

The packaging and manufacturing sectors often grapple with space constraints, slow throughput, inventory inaccuracies, and pilferage. These issues can significantly impact productivity and profitability.

Unique Features of Lean-Lifts and Rotomats:

Industore's Lean-Lifts and Rotomats are designed to address these challenges head-on. They provide unmatched benefits, such as effective utilisation of vertical space, increased storage density, enhanced throughput, improved order picking accuracy, ergonomic design, and total stock transparency. What sets us apart from other providers of similar solutions, is our hardware's adaptability and reliability – making them a truly future-proofed solution.

Integration and Customisation:

Industore's solutions are highly versatile, capable of integrating seamlessly with existing warehouse management systems (WMS) or utilising their proprietary software, HänelSoft. These systems can be tailored to meet specific dimension and design requirements, including partial, or full branding customisation.

Industore's Lean-Lifts and Rotomats have already transformed the operations of numerous companies in the packaging and manufacturing industries. These success stories attest to their versatility, reliability, and efficiency. All our staff are based here, they're familiar with the business and the products, the country and how business in this country works. No overseas support, no language barriers, and no excuses. Working with Industore is working in partnership, and joining the world's brightest and best – because Industore clients are a who's who of leaders.

If you're looking to overcome space constraints, improve inventory control, and boost productivity, **Industore is the answer.**
